Portfolio: <https://kalaiyazhagan.in>

PROFESSIONAL SUMMARY

Final-year Artificial Intelligence & data science student, Full Stack Developer with hands-on expertise in Java, Python, C, REST APIs, React, and MySQL. Solved 150+ DSA problems on LeetCode across arrays, strings, trees, recursion, hashing, and dynamic programming. Built and shipped multiple full-stack projects spanning web apps, ML-driven prediction systems, and RESTful services. Strong foundation in OOP, DBMS, Operating Systems, and Computer Networks, with internship experience in full-stack development and CI/CD fundamentals.

TECHNICAL SKILLS

Programming Languages: Java, C, Python,

Web Technologies: React.js, HTML5, CSS3, JavaScript

Backend & APIs: Spring Boot, REST API Design, fastAPI, MVC Architecture, JDBC

Databases: MySQL, Query Optimization

Core CS Subjects: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

Tools & Platforms: Linux, Git, GitHub, VS Code, Figma, Docker (fundamentals)

Testing: Selenium (Automated Testing), Unit Testing

INTERNSHIP EXPERIENCE

Full Stack Web Development Intern (Training) — *Accent Techno Soft*

2025

- Built full-stack web applications end-to-end using React, Spring Boot, and MySQL, translating requirements into working features.
- Designed and implemented RESTful APIs following MVC architecture; integrated frontend and backend via HTTP and JSON.
- Used Git for collaborative version control and gained hands-on exposure to CI/CD deployment fundamentals.

PROJECTS

Story babe -social media platform | HTML, Tailwind CSS, React JS, Typescript, PostgreSQL, REST API,

[Repo Link](#)

- Developed a full-stack web application to users posting their personal experience and get socialize with other people.
- Designed and implemented micro-service architecture for edge cases, integrating PostgreSQL for reliable, scalable data storage.
- Implemented image generation model to let users generate post images according to their personal essays and stories.
- Securing each user's data by implementing Authentication and added customer care support for users.

Website link: <https://storybabe.kalaiyazhagan.in>

Bucket Chat — Real-time communication system | Python, Flask, HTML, CSS, JavaScript.

[Repo Link](#)

- Built a high performance, real-time communication platform that enables users to create and join chat rooms.
- Implemented JWT-based authentication and authorization with role-based host controls for muting, kicking, banning users, locking rooms and enabling broadcast-only mode.
- Built asynchronous RESTful APIs and WebSocket communication using fastAPI for real-time messaging, direct whispers, typing indicators, reactions, member updates, and chat history exports.
- Build a responsive three-column interface with live member tracking, capacity monitor and host moderation.

Website link: <https://bucketchat.kalaiyazhagan.in>

Sovereign Chess Engine| C++20, JavaScript, Node.js, HTML, CSS.

[Repo Link](#)

- Developed a high-performance chess engine using C++20 bitboards, optimized move generation, Zobrist hashing, and complete Chess rule validation.
- Implemented an advanced search system with alpha-beta pruning, iterative deepening, quiescence search, transposition tables, Null-move pruning, and late-move reductions.
- Built a Node.js web server with Universal Chess Interface (UCI) to connect the native C++ engine with a browser-based chess app.
- Designed responsive chess interface supporting player vs AI, Pass & Play, AI vs Player, FEN/PGN management, move history, Engine evaluation.

CERTIFICATIONS

- Oracle Cloud Infrastructure Certified Foundations Associate — Oracle, 20244
- Certification of python(basics) — hacker rank, 2024
- Full-Stack web development course — Udemy, 20255
- Smart India Hackathon (participation) — SIH, 2025,2026

EDUCATION

B. Tech, ARTIFICIAL INTELLIGENCE AND DATA SCEINCE — **GPA: 7.5** — *Muthayammal college of engineering, rasipuram* 2023 – Present
